Subject: RE: Aerojet Split-Sampling

Hi Geoff,

I can talk today from 1:30-2:30 PM and 4:30-5:30 PM. Tomorrow I'm free from 10 AM-1 PM.

Thanks,
Grace

Subject: RE: Aerojet Split-Sampling

Hi Geoff,

I'm not sure I know the complete split sampling picture. I believe Alex collected 1) Effluent samples from the GETs 2) Samples from water suppliers' wells 3) Area 40 soil or soil gas samples.

I'm free most of the next two days. Grace what works for you?

Daewon

Subject: Aerojet Split-Sampling

Good Morning Daewon,

My understanding from conversations with Alex MacDonald is that he used to collect split-samples at the Aerojet site to fulfill some of USEPA's sampling requirements, as it would have been much more costly for USEPA staff to come out and collect these samples. However, I don't have any type of schedule for the samples that Alex previously collected (when I asked, he said it was all in his head). If you have some time today or tomorrow, I'd like to discuss these sampling efforts with you. Part of my motivation for emailing you now is that Geosyntec just contacted me about split-sampling during the monthly NPDES sampling event next week, so I'd like to get a handle on this sooner rather than later.

I don't have any meetings for the rest of the day today or tomorrow. Feel free to call my desk phone (916.464.4707) or I can schedule a meeting in MS Teams if that would be easier. Thanks in advance for the help.

Thanks,
Geoff
